

Planet Domain Payment Information

Commissions are the goals for achievement in this business, and here at planet domain we are committed to making sure our resellers earn and are getting their commission.

This is how it works:

Once your resellers account has reach over \$50, an invoice is generated at the end of the month. An email is then sent to the reseller, advising the reseller to approve the generated invoice.

Once the invoice is approved, our finance team will receive the confirmation and the payment process will begin.

The payment process may take 2-4 weeks to process depending on when the invoice was approved.

If you have any issues with commissions payments, please contact us on 1300 669 567 or resellersupport@planetdomain.com.
